## CARRIER OBJECTIVES

---

I am a passionate and results-driven Software Developer with a solid background in web application development and mentoring. Currently working at Nebula IT, I specialize in building scalable and dynamic web applications using Laravel, PHP, WordPress, and Livewire. With over 3 years of hands-on experience, I have successfully led Nebula IT Web development teams and delivered high-quality, client-focused software solutions.

## SKILLS

---

- **Expertise:** PHP, Laravel, JavaScript (ES6), Bootstrap, Tailwind CSS, WordPress
- **Familiar:** VUE.js, React.js, Livewire, RESTFUL API
- **Tools & Software's:** Git, VS Code, Chrome dev tools, Netlify

## EXPERIENCE

---

**Software Developer & Mentor**

Nebula IT

**Nov 2022 – Present**

**Frontend Developer**

Nebulas IT LTD

**Sept 2020 – May 2022**

## PROJECTS

---

**Battery Inventory & Sales Management System** - A complete battery sales and inventory management solution built for efficient business operations — from supplier to customer. The system automates packaging, production, sales, replacement tracking, and accounting, using FIFO logic for accurate stock and profit calculation.

- ❖ **Used Technology:** Laravel, Livewire, Ajax, MySQL
- ❖ **Live link**

**Printing Press ERP System** - A custom-built ERP system tailored for printing press businesses, developed using Laravel 12, Livewire, and MySQL. It streamlines daily operations, automates print job cost calculations, and manages all financial records with accuracy.

- ❖ **Used Technology:** Laravel, Livewire, Ajax, MySQL
- ❖ **Live link**

**Travel Agency Management System** - I developed a complete Travel Agency Management System using Laravel, MySQL, and AJAX to streamline the operations of travel agencies, including client, vendor, agent, and sales management. The system automates commissions, accounting, attendance, payroll, and payment processes, ensuring full business control from a single platform.

- ❖ **Used Technology:** Laravel, Livewire, Ajax, MySQL, SSL Commerce
- ❖ **Live link**

**SEO Meta Data Generate** - AI-Based SEO Metadata Generator – Developed an automated SEO tool using Gemini, Grok, and Hugging Face APIs to generate optimized meta titles and descriptions for AI-generated image marketplace listings (such as stock media platforms), improving search visibility and content discoverability.

- ❖ **Used Technology:** Laravel, Livewire, API, MySQL
- ❖ **Live link**

**Training Management System** - Built a smart training management platform with student records, attendance, batch control, payroll, certificate verification, and accounting automation to streamline institutional operations.

- ❖ **Used Technology:** Laravel, Ajax, MySQL, ZKTeco Device Integrate

## **EDUCATION**

---

**B.Sc. in Computer Science & Engineering**

Northern University Bangladesh

**SEP 2016- DEC 2020**

CGPA: 3.58

**Higher Secondary Certificate (HSC)**

Tetula Govt. College

**2014 - 2016**

GPA: 4.08 (Science)

## **CERTIFICATION**

---

**Laravel Career Path from Interactive Care**

Issued October, 2024

**Responsive Web Design from freeCodeCamp**

Issued June 23, 2022

**Complete Web Development Course from Programming Hero**

Issued December, 2020
